

Grass-fed Beef

Our beef is always 100% grass-fed and supplemented only with free-choice minerals and grass hay. At processing time, we carefully select among our fattening cows to choose the ones that will produce the highest quality beef.

Pastured Chicken

Our chickens are more than "free-range." They are raised on pasture with continual access to fresh forage, insects, and plenty of space, without the use of soy, antibiotics, or genetically-engineered feeds.

Pasture-Raised Pork

Our old-fashioned breed pigs are raised on pasture without the use of soy, genetically-modified feeds, or growth stimulants. We take care to finish our pigs to optimum plumpness to ensure great flavor and juiciness.
